**ePayAdvisors™ and MACH1 Announce a New Partnership
for ACH Enablement of Micro Businesses**

Birmingham, AL, June 16, 2017 – ePayAdvisors™ announced a partnership today with Wexford, PA based Profit Engine, LLC to provide their MACH1 solution to their clients and to the members of ePayResources™.

The MACH1 solution combines a mobile app with a browser-based interface to make it simple and economical for companies as small as one person to send bills and get paid electronically while generating add-on sales and referrals. These “solopreneurs” and their part-time “side-gigger” counterparts are typically independent service providers who specialize in a range of services including pet sitting, lawn maintenance, home cleaning, car detailing, personal training or coaching, music lessons, and more.

“This partnership will expose our Clients and members to a solution that we believe is a revolutionary new approach to bringing ACH to a large, but typically underserved, audience,” said Pamela T. Rodriguez, AAP, CIA, CISA, President & CEO of ePayAdvisors™.

“MACH1 is an exciting example of fintech being effectively leveraged through a mobile app to address a compelling and previously unmet need within the small business community,” Rodriguez added.

MACH1 enables one-person businesses to easily create and send professional-looking bills that their customers can open using text or email and pay with a single click. Simpler and more convenient than typical accounting software, MACH1 pricing starts at just \$9 per month and the solopreneur can get paid electronically at no additional cost.

“We are extremely pleased to be partnered with ePayAdvisors,” said George McKee, III, President & CEO of Profit Engine. “Having the opportunity to collaborate with an organization of their stature to introduce MACH1 is testament to our efforts to build a solution the market wants and can trust,” added McKee.

Since launching earlier last month, MACH1 has been garnering a fair amount of attention among financial institutions, and was recently awarded the prestigious David P. DeMarea Payments Innovation Award. Unique features include the ability to add before and after photos or personalized videos to bills, send payment reminders and automatically generate receipts, as well as quickly and easily create, distribute and track responses to special offers that customers and prospects can readily share through social media to generate add-on sales and referrals.

About ePayAdvisors™

ePayAdvisors™ is a wholly-owned subsidiary of ePayResources™, the second-largest Regional Payments Association member of NACHA. ePayAdvisors™ provides payments risk management, compliance, and consulting services to financial institutions and businesses throughout the U.S. Our suite of services includes Audits and Risk Assessments for financial institutions for ACH, Electronic Deposit, and Wire Transfer; ACH Audits for Third-Party Senders and Service Providers; and customized payments consulting for financial institutions and corporations. About MACH1

MACH1 is the only mobile solution that specifically targets the 35 million Americans who are self-employed as “solopreneurs” or as part-time “side-giggers,” the majority of whom are service providers. This award-winning solution enables these smallest-of-small business owners to successfully address the two biggest challenges they face: getting paid on time and getting more business by making it easy and economical for them to send bills, get paid and sell more. MACH1 is available for download via the Apple App Store and Google Play. For more information, visit mach1.com.
